## Automatic Rate Float Down for High-Interest Rate Loans!

Reunion Mortgage is pleased to announce that we are proactively lowering the Note Rate for C30 loans with high-interest rates that were locked before March 18th. Yesterday's market rally has resulted in improved pricing, so locked C30 loans at 5.125% or higher will be lowered to 5.00%.

The broker rebates will remain unchanged, and Loans in Docs Out or Docs Received status will also receive a free 10-day lock extension automatically. The lock expiration dates for all other loan status types will remain unchanged.

We are manually adjusting the Note Rates for these loans, and will have them completed by the end of the day. You can verify your loan rate in Reunion Direct after 4:00 pm.

If you have any questions, please contact your Account Executive or local branch.
